

## SUNFIRE APPOINTS JENS HENNEBERG AS CHIEF OPERATIONS OFFICER (COO)

Sunfire welcomes Jens Henneberg, an experienced manufacturing expert, as its new COO. As a member of the management team, Henneberg will continue to drive the growth and scaling of the hydrogen pioneer.

**Dresden, August 05, 2024** –Sunfire, a leading global electrolysis company, has appointed Jens Henneberg as new Chief Operations Officer (COO), effective August 1. Henneberg, a distinguished expert in production and supply chain management brings over 20 years of experience in operational excellence from national and international leadership roles. He succeeds Bernhard Zwinz, who has held the COO position at Sunfire since 2020.

Jens Henneberg has managed production sites both domestically and internationally for many years. With his deep technical expertise and leadership skills, the graduate engineer has successfully built and restructured organizations and has an extensive experience in industrialization. Henneberg spent 17 years at Robert Bosch GmbH and its subsidiaries. During several years abroad, he managed production sites in the Czech Republic and China, among others. As a process optimization expert, Henneberg led the global transformation of organizations and production sites in countries such as Japan, Mexico and the USA. Most recently, Henneberg was responsible for global production and supply chain management at a leading provider of energy management solutions.

Together with Nils Aldag (CEO), Christian von Olshausen (CTO) and Frank Posnanski (CFO), Jens Henneberg as COO will further drive the growth and scaling of Sunfire's electrolysis business. "With Jens Henneberg, Sunfire gains an experienced leader and internationally adept manufacturing expert," says Frank Mastiaux, Chairman of the Advisory Board. "Sunfire is on a dynamic growth path. Jens Henneberg will decisively support the company on this path with his extensive expertise in leading, managing, and optimizing manufacturing processes, positioning the operations to meet the scaling targets."

Jens Henneberg states: "I am excited about my new role at Sunfire. It is a great opportunity to contribute to a leading global electrolysis company. At the same time, I am inspired by Sunfire's commitment to driving technology and innovation from East Germany."

Jens Henneberg succeeds Bernhard Zwinz, who has guided Sunfire as COO since 2020. "On behalf of Sunfire, I would like to thank Bernhard for his dedication. Together, we have successfully achieved many significant milestones for Sunfire over the past four years," says Nils Aldag. "We wish Bernhard all the best in his future endeavors."

### About Sunfire

Sunfire is a global leader in the production of industrial electrolyzers based on pressurized alkaline and solid oxide (SOEC) technologies. With its electrolysis

solutions, Sunfire is addressing a key challenge of today's energy system: Providing renewable hydrogen and syngas as climate-neutral substitutes for fossil energy. Sunfire's innovative and proven electrolysis technology enables the transformation of carbon-intensive industries that are currently dependent on fossil-based oil, gas, or coal. The company employs more than 650 people located in Germany and Switzerland.
